

Support the Next Generation of Bristol Manufacturers
 Bristol High School Manufacturing Collaborative Opportunities

Sponsor-a-CAD Student Program

Scholarship: \$250

Your scholarship will provide one student the necessary resources to complete the MasterCam certification test and pay for the credential.

Sponsor-a-CAD Cohort Program

Scholarship: \$5,000

Your scholarship will provide a cohort of students the necessary resources to complete the MasterCam certification test and pay for the credential.

Sponsor-a-CWE Student

Contribution: 50 hours (\$790, 100 hours (\$1,560)

This option affords a student in the manufacturing pathway the experience of working in a manufacturing facility. All state guidelines must be adhered to when hosting a student at a manufacturing facility. Through grant funding, Bristol Public Schools will support a minimum wage rate for students who are working 50/100 hours of employment.

Sponsor-a-Teacher Summer Program

Contribution: \$1,300

Your contribution will be awarded to a teacher in the manufacturing pathway looking for experience at a manufacturing facility. **The \$1,300 is the anticipated pay for the teacher working in your facility for 40 hours.** Teachers will gain an understanding of your sites required skills. This understanding will be leveraged in writing curriculum and designing lessons.
